

STEALTH ADDITIVE WORKS

WARRANTY

We will repair or replace, free of charge, any product manufactured by Stealth Additive Works (SAW) that is deemed to have manufacturing defects.

The product is sold “as is” with no further implied contractual rights or warranties beyond those expressly stated herein.

SAW products are highly capable, but for safety and product life, feature strict restrictions on caliber, rate of fire, barrel length and muzzle device type. Failure to adhere to product use instructions will void the product warranty. Symptoms of failure and wear pattern in the suppressor will be identified and reviewed for warranty eligibility.

SAW assumes no liability for damages or bodily injury caused by such acts or omissions as previously described. Abuse and neglect are defined as usage outside of the reasonable scope for which the product is intended, thus, contributing to the accelerated and unreasonable premature wear of the suppressor itself. Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

The warranty extends to the original registered owner and excludes products damaged due to normal wear and tear, unauthorized modifications, embellishments or alterations, improper use, improper maintenance, improper installation, accident, misuse, negligence, damage, or if the product is used for a purpose for which it was not designed or used not in accordance with the product instruction. Using ammunition types or barrel lengths that are not specified in the suppressor's instructions is considered improper use. Unauthorized product modification automatically voids the Stealth Additive warranty. Damage due to wear and tear may be repaired at a reasonable charge. SAW will use reasonable discretion to determine the validity of warranty claims. Replacement of discontinued products is subject to inventory availability. Stealth Additive may offer a comparable newer model as a replacement if necessary.

With the constantly growing number of adapter and mount designs in the market, SAW will only warranty suppressors that are used with products on the Approved Mounts and adapters List with the associated barrel. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.

If for any reason your suppressor is not eligible for repair or replacement, you may purchase a replacement suppressor for 50% off the listed MSRP for a same or similar suppressor. Depending on the destructive aspects of suppressor due for warranty, the purchaser should expect a minimum of a four (4) week return period, as the suppressor will be required to slot into manufacturing production scheduling.

Please contact our sales department for further details and requirements.

No returns will be accepted without filling out the Warranty Return Form below first and getting an approved RMA from our Customer Service team. service@stealthadditive.com
